

# New Book on Tustin History Available!

The Tustin Area Historical Society worked with local author Guy Ball and Arcadia Publishing to produce *Images of America: Tustin*, a book of 200 vintage Tustin photos with companion text.

Most of the photos were chosen from the thousands of images in our extensive collection. Others came from collections of local families, the Orange County Archives, and other groups.

The book is now available at many stores including Barnes & Noble, Woodward's Ace Hardware, Ivy's Bridge to Better Health restaurant (Old Town), Acorn Naturalist, H. Foster & Jackson (Enderle Center), Walgreens, and other local stores. The Museum also has copies and the proceeds from books sold go to our various educational and preservation programs.

If you buy a copy through the Society, you have the option of having the author sign and personalize your book.

**Click the link below to view/download a PDF flyer** with ordering information. If you would like to pick up the book from the museum, you do not need to add shipping. (If you want the book personalized, we will call or email you when it is available.) Otherwise please add the appropriate shipping cost.
