Free Teen & Parent Safe Driving Class

Teens and Parents are invited to a FREE informative and interactive presentation about the growing epidemic of "distracted driving." Every day, thousands of teens and adults are involved in preventable crashes with deadly results. The Tustin Community Foundation is proud to partner with DCH Tustin Acura and the Students Against Destructive Decisions (SADD) Clubs at Tustin and Beckman High Schools to present a frank discussion about how teens and parents can face these challenges openly and honestly on Friday, October 21, 2011 from 5:30 PM to 8:30 PM at the Tustin Area Senior Center, 200 C Street. Food and beverages will be provided and all attendees will receive a free car first aid kit.

In addition, families will gain important tips and learn from a variety of insurance providers about good driver and good student discounts on their auto insurance and learn how to create and build financial credit for young adults ready to take on college, car, new job, and future financial responsibilities. Attending this seminar can qualify teens for insurance discounts.

Seating is limited. Reserve your seats before they are gone. Call 714-669-9900 or 714-393-8506.
